The Association's Professional Indemnity and Professional Standards Committee (the **Committee**) reviewed the policies and provided its recommendations to Council. The Committee does not have a role in recommending which policies might be best suited to a member's practice. Members should make their own enquiries, both as to cost and suitability. The Committee's role is to consider whether the insurers ought to be approved for the purpose of providing professional indemnity insurance for Queensland barristers.

Please note that the Association is not an agent for any of the above companies. No member of the Bar Council or any Association employee is authorised to provide any information about any of the policies.
