

JACKSON STREET

C H A M B E R S

Jackson Street is a new chambers for barristers of all practice areas and experience. It recognises the diverse ways barristers work to assist legal outcomes that make practical solutions possible.

VoIP telephony, brief management software and smart research tools are part of Jackson Street's pragmatic perspective on practice that it offers to each of its barristers. This is in addition to an individual website profile (with photography), stationery and signage.

Based at Santos Place, near Queen Elizabeth II Courts of Law, barristers can choose to have an office, work remotely or a combination.

Membership fees are paid quarterly. There are no exit or entry fees.

To learn more about Jackson Street please contact the chambers manager:
